I. Introduction

1. The Government of Mauritius is committed to strengthening democracy, promoting nation building and entrenching the fundamental rights and freedoms of Mauritian citizens. The promotion and protection of human rights is guided by the basic philosophy underlying Government Programme 2015-2019 which is “Achieving meaningful change”. In addition to the human rights provisions enshrined in the Constitution, a series of measures have been adopted and are aimed at ensuring that the Citizens of Mauritius, irrespective of their race, place of origin, political opinions, color, creed or sex are able to exercise effectively their civil, political, economic, social and cultural rights.

2. In 2017, the Economist Intelligence Unit (EIU) ranked Mauritius as the 16th most democratic nation in the world illustrating the commitment of the Government to strengthen the existing democratic and human rights architecture. Mauritius also retained its first place on the Mo Ibrahim Index relating to governance performance in African countries. The Rating for Mauritius was 0.781 in the 2016 Human Development Report. Consequently, Mauritius is placed in the high human development category and positions itself at 64 out of 188 countries and territories. Both the International Monetary Fund and Moody’s have described the economic performance of Mauritius as being strong and resilient. In March 2018, Moody’s affirmed the current Ba1 sovereign credit rating for Mauritius due to its stable outlook.

II. Methodology and consultation process

3. In the preparation of our third Mauritius Report for the Universal Periodic Review, the General Guidelines of the Human Rights Council have been followed.

4. The national report of the Republic of Mauritius covers the Islands of Mauritius, Rodrigues, Agalega, Tromelin, Cargados Carajos and the Chagos Archipelago, including Diego Garcia and any other island comprised in the State of Mauritius. Workshops and brainstorming sessions were organised with relevant stakeholders. The Report aims at providing updates on the recommendations made during the last review in July 2013. It should be read in conjunction with the following:

   (a) Periodic reports submitted to the Committee on the Elimination of Discrimination against Women (2018), The Committee on Economic, Social and Cultural Rights (2017), the Committee on the Elimination of Racial Discrimination (2017), the International Covenant on Civil and Political Rights (2016) and Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment (2016);

   (b) UPR mid-term report of Mauritius submitted in May 2016.

The Chagos Archipelago

5. The Chagos Archipelago, including Diego Garcia, forms an integral part of the territory of Mauritius under both Mauritian law and International law. Although Mauritius has sovereignty over the Chagos Archipelago, it is being prevented from exercising its sovereign rights over the Chagos Archipelago. The United Kingdom excised the Chagos Archipelago from the territory of Mauritius prior to independence, in violation of international law and UN General Assembly Resolutions 1514 (XV) of 14 December 1960, 2066 (XX) of 16 December 1965, 2232 (XXI) of 20 December 1966 and 2357 (XXII) of 19 December 1967. The decolonization process of Mauritius therefore remains incomplete.

6. The illegal excision of the Chagos Archipelago from the territory of Mauritius also involved the eviction by the United Kingdom of the Mauritians who were residing at the time in the Archipelago (“Chagossians”) in total disregard of their human rights. Most of the Chagossians were moved to Mauritius.
7. Chagossians, being fully-fledged citizens of Mauritius, enjoy the same rights as other Mauritian citizens. However, with a view to improving the well-being of the Chagossians, the Government of Mauritius has taken and continues to take special measures in their favour. These measures include the donation of land for the construction of houses and the setting up of the Chagossian Welfare Fund (Recommendation 113).

III. Human rights framework – developments since last review in 2013

Political

8. In November 2017, the Ministry of Justice, Human Rights and Institutional Reforms was created and the portfolio of Human Rights was transferred from Prime Minister’s Office to the newly created Ministry. Additionally, a Human Rights Secretariat and the National Mechanism for Reporting and Follow-Up (NMRF) have been set up since December 2017 under the aegis of the new Ministry (Recommendations 25, 42). This new framework aims to ensure that Human Rights obligations are fully met, periodic reports and mid-term Review/Progress Reports are submitted in a timely manner after thorough consultations with all parties concerned. Furthermore, it ensures a better coordination among Ministries in respect of the implementation of recommendations and decisions and enables a thorough monitoring of Human Rights issues.

9. The Independent Police Complaints Commission Act was proclaimed in April 2018 and the IPCC is already operational. The IPCC investigates into complaints, other than acts of corruption or money laundering offences, made against police officers in the discharge of their functions.

International conventions and protocols

10. Mauritius is taking the necessary steps to ratify or accede to the major human rights instruments. The newly set up NMRF is responsible for coordinating this task (Recommendation 1).

11. Ratification of the International Convention on the Protection of the Rights of all Migrant Workers and Members of their Families (ICRMW) (Recommendations 2, 3, 4, 5, 6, 7 and 115): it will not be possible to allow migrant workers with their families, in view of Mauritius being geographically small and having limited resources.

12. The second Optional Protocol to the International Covenant on Civil and Political Rights (ICCPR), aiming at the abolition of the death penalty (Recommendation 8). Following the enactment of the Abolition of Death Penalty Act 1995, all death sentences imposed have been commuted to sentences of penal servitude for life (Recommendations 116 to 119 and 121). The Supreme Court may now inflict sentences of penal servitude for life or sentences for terms not exceeding 60 years where the law so provides.

13. The ratification of The International Convention for the Protection of All Persons from Enforced Disappearances (CPED) is not being envisaged for the time being (Recommendations 9, 10, 11). Mauritius has no case of enforced disappearance (Recommendation 122).

14. The ratification of the Optional Protocol to the International Covenant on Economic, Social and Cultural Rights (ICESCR) is under consideration (Recommendation 132). There are a number of existing domestic remedies already available to Mauritian citizens. Mauritius being a welfare state, already provides free education, free access to health services and social aid to vulnerable groups and universal pension benefits to the elderly and free public transport for elderly and students. (Recommendation 120).

15. The third Optional Protocol to the Convention on the Rights of the Child (CRC): The Third Optional Protocol on a Communications Procedure to the CRC was signed on 13
August 2012 (Recommendations 12 and 13). Ratification of same shall be envisaged once
the Children’s Bill and Adoption Bill are passed by the National Assembly. Both Bills have
reached an advanced stage of preparation.

16. Mauritius has not yet ratified the Convention on the Prevention and Punishment of
the Crime of Genocide (Genocide Convention of 1951): Mauritius is already a party to the
Rome Statute and same has been domesticated in the International Criminal Court Act
which criminalises genocide and other atrocities of war crimes. (Recommendations 14, 15
and 127).

17. Mauritius is considering the signature and ratification of the Protocol to the African
Charter on Human and Peoples’ Rights on the Rights of Older Persons in Africa adopted by
the African Union in 2016. The NMRF is currently coordinating between stakeholders.

18. Mauritius has ratified the Protocol to the African Charter on Human and Peoples’
Rights on the Rights of Women in Africa in June 2017, albeit with reservations.

19. Mauritius has not yet ratified the Agreement on the Privileges and Immunities of the
International Criminal Court (ICC). However, draft regulations have been prepared for
discussions and comments. (Recommendation 129).

20. Mauritius has not signed the 1951 Convention Relating to the Status of Refugees
and its Protocol (Recommendations 15 and 123). Government has consistently not
adopted a policy to grant status of refugees to foreigners. Assistance is extended to those
who apply for asylum through the United Nations High Commissioner for Refugees by
facilitating their settlement in a country willing to receive them.

21. Mauritius has not yet ratified the Kampala Convention (Recommendation 130).
Mauritius does not have problems associated with internally displaced people in view of its
size and topography.

22. Mauritius has ratified the Convention for the Protection of Individuals with regard to
Automatic Processing of Personal Data known as “Convention 108”. Mauritius is the first
African country to ratify this Convention.

Legislative

23. New pieces of legislation have been enacted since the last review of Mauritius to
better guarantee the protection of human rights (Recommendations 28, 29).

24. The Human Tissue (Removal, Preservation and Transplant) Bill has been passed
in 2018. A better legal framework for the removal, preservation and transplant of human
tissue, other than blood, under appropriate medical supervision is now available.

25. The Reform Institutions (Amendment) Bill was passed in April 2018. The object
of the Bill is to:

(a) Do away with the system of automatic remission whereby convicted persons
were eligible to be discharged after having served two thirds of the period of sentence and
to replace it with a new system of earned remission with a view to encouraging convicted
persons to earn maximum remission not exceeding one third of the period of sentence
where, during their term of imprisonment, they are of good conduct by not committing any
prison default;

(b) Toughen the law against officers of the Mauritius Prisons Service, detainees
and persons working in reform institutions who are convicted under the Act; and

(c) Provide that where, during his term of imprisonment, a detainee commits an
offence under the Act, that detainee shall, on conviction for that offence, be ordered to
serve immediately after the expiry of the sentence for which he was detained, any sentence

The law was also amended to put the burden of proof, that a discrimination on ground of criminal records is relevant, on the employer.

29. The Extradition Act dating back to 1970 was repealed and replaced by a new legislation. The Extradition Act was passed in the National Assembly in 2017 to make better provisions for the extradition of persons from and to Mauritius. It simplifies extradition procedures and makes no distinction between Commonwealth and non-Commonwealth countries and promotes cooperation without for that matter neglecting to make adequate allowance for the rights of persons whose extradition or arrest is sought. The Act has already been proclaimed and is in force. In fact, the first case of extradition under the new law has been processed in 2018.

88. Following the change in law, a new database of 8,340 eligible poor households had been constituted under the Social Register of Mauritius (SRM) as at 31 December 2016. The first payment of the monthly subsistence allowance to 7,993 eligible households, who
